

Wissenschaftliche Vorträge

Prof. Dr. Thomas Hehlhans

2017

Gordon Research Conference "Antimicrobial Peptides", "Antimicrobial Peptides in Health and Disease", 2017

Prof. Dr. Michael Rehli

2019

Symposium "Chromatin dynamics, gene expression and signal transduction in health and disease", Universidad Concepcion, Chile, 10.12.-11.12.2019

ICGEB conference on 'Epigenetics of infectious and non-communicable diseases' Cape Town, South Africa, 16.09-19.09.2019

2018

Universitätsklinikum Mannheim (Einladung: Univ.-Prof. Dr. med. Dr. rer. nat. Andreas Teufel), 20.09.2018

Prof. Dr. Uwe Ritter

2019

Klinikum der Universität Regensburg, "Histo-cytometry: a powerful tool for the characterization of adaptive and innate immune responses in situ"

2018

22. Symposium: "Infektion und Immunabwehr", "Myeloid cells: pivotal modulators of adaptive immunity against Leishmania parasites", Burg Rothenfels

Hyperflow 2018 "Charakterisierung und Bewertung immunologischer Prozesse durch bildbasierte Analyseverfahren", Wien

weiter Prof. Dr. Uwe Ritter **2017**

47. Jahrestagung der Deutschen Gesellschaft für Immunologie, “Dectin-1 positive dendritic cells expand after infection with Leishmania major parasites and represent promising targets for vaccine development”, Erlangen

Tierärztliche Hochschule Hannover, Arbeitsgruppe Immunologie Research Center for Emerging Infections and Zoonoses (RIZ), “Myeloid cells: pivotal modulators of adaptive immunity against Leishmania parasites”, Hannover

2016

Optics, Aligos and Ice-Symposium „Histo-cytometry: A Powerful Tool for the Characterization of Adaptive and Innate Immune Responses in situ“, Obergurgel,

Dr. Christian Schmidl

2017

2nd Midwinter Conference (MWC) Advances in Immunobiology, “Pooled CRISPR screening with single-cell transcriptome read-out”, Seefeld, Austria
